

Nuendo 5

Steinberg Nuendo AC3 Encoder

Steinberg Nuendo DTS Encoder

The Nuendo AC3 Encoder and Nuendo DTS Encoder are discontinued products and the original versions are incompatible with Nuendo 5. However, there are adapted versions of both products which provide basic compatibility with Nuendo 5.

Please note:

- The Mac versions can only be used on Apple PowerMac CPU computers.
- The Windows versions do not run on Windows 64 bit systems.
- Both Mac and Windows versions are unsupported and will not be developed further, but may help you finish your productions during the transitional phase.

Installation
